

The Undefeated

*Here a humble people
molded by sheer adversity
highly akin and patterned by
a home deep down in history*

*Transcending the blackness
on ships that they were sent
from a place once called
the dark continent*

*Shores of a new world
is where their saga began
inheriting only their dignity
to fulfill an economic end*

*Bringing to this new world
a culture of the old
leaving behind a legacy
of a history left untold*

*Sustained by a will to live
their hope never depleted
Black people in America
defines the undefeated*

*We did an amazing thing
what no other people could
we took pessimistic circumstances
and changed them for the good*

*Surviving centuries of slavery
racism, bigotry and hate
it is these Black Americans
who made America great*

*Whites refuse to concede
their lead now deleted
Black people in America
defines the undefeated*
